

SHIPYARD MOBILIZATIONS

➤ SODEXO GLOBAL OFFSHORE & MARINE

With more than 40 years of serving the Oil & Gas industry worldwide, Sodexo has developed innovative Quality of Life Services to support those who live and work in such extreme conditions.

Sodexo has mobilized over 65 new built rigs in the past 3 years. With dedicated shipyard mobilization teams in Korea, China and Singapore under one management, we ensure consistent delivery irrelevant of which shipyard your rig might come from. We offer clients a complete mobilization process and delivery service to locations across the world.

We Promise

- To define a budget with you, and manage and keep to it throughout the transit
- Effective on time mobilization
- Smooth journey at every stage and stop (crew change, suppliers...) whether your bunkering is 48 hours or 2 weeks, our team can handle the necessary requirements
- Daily relationship and reporting to ship manager
- Seamless handover at any global destination

Our Difference

- Permanent presence in shipyards (office, team and vehicles) to accompany and support you in this important first stage of the rig/vessel life
- Experienced, well trained and highly skilled crews dedicated to mobilization and not just using agency staff without the experience and training
- Highest HSE standards (HACCP compliant)
- Unequaled experience of mobilizations
- Local and global supplier contracts

QHSE

We understand that QHSE is a top priority for you. Sodexo maintains a global QHSE support structure with standardized reporting to track accurate Quality, Health and Safety metrics in SALUS.

“ Thank you very much for your time on board the Mylos. It has been a pleasure, and the scope of work has been performed in a professional manner. One important thing you managed to do, you did not put on to us (Mylos crew) any additional work, and you have been self-contained since you arrived. ”
