

We achieved a **92%+** recycling rate

We can help you to reduce the environmental impact of waste and drive economic benefits

Our approach - values & benefits

These are the values that underpin our proposition and reflect the benefits we deliver:

Compliance

Delivery of a robust operating framework for waste management services that ensures legal compliance and mitigates risk

Sustainability

Working to help minimise the environmental impact of waste by encouraging clients to think differently about the waste they produce and how they reduce, reuse and recycle materials

Evolution

Support and encourage the behavioural and cultural change necessary to deliver a more sustainable future for all stakeholders

compliance
sustainability
evolution

We are able to offer competitive financial benefits due to the volume of business we already manage across the UK.

Our relationships with specialist service partners enable us to handle difficult hazardous waste streams with diligence and care.

Save up to **15%** on annual waste costs

For a better tomorrow

We have experience of managing more than 350 waste management contracts. Designed with quality and compliance in mind, our bespoke solutions incorporate the management, site logistics, storage, collection, and treatment and/or disposal of hazardous and non-hazardous waste streams.

Maximising management efficiency: one point of contact, one invoice, one report

We work with the best waste partners to meet your needs. They are heavily vetted and share our drive to deliver on pre-agreed performance standards.

As a business, you will face these challenges...

The need to:

- Meet legislative requirements
- Demonstrate compliance with duty of care
- Improve environmental performance
- Improve sustainability credentials
- Demonstrate corporate responsibility
- Initiate business and cultural change
- Improve economic performance

Waste hierarchy - the waste management strategy which drives our approach

01

Prevent

Minimise the amount of waste you produce. Avoid producing waste in the first place

02

Reuse

Use items as many times as possible

03

Recycle

Recycle what you can - only after you have reused it

04

Recover

Turn waste into a new substance or product. i.e. energy from waste

05

Dispose

Dispose of what's left in a responsible way

Delivering solutions

Our solutions support you to:

Improve economic performance

- Manage the impact of rising landfill tax
- Reduce waste stream costs
- Generate greater cost benefits
- Utilise appropriate waste technologies to drive efficiencies

Mitigate risk

- Meet legislative requirements
- Demonstrate compliance with duty of care
- Establish a robust process of due diligence
- Prepare for future legislative changes

Engage stakeholders

- Initiate business and cultural change
- Encourage positive behaviour towards the generation and operation of waste
- Deliver positive PR

Improve sustainability

- Initiate a programme to fully implement the waste hierarchy
- Minimise waste to landfill
- Increase recycling
- Improve waste segregation
- Reduce carbon footprint
- Utilise innovative technology
